Dear Barry,

It is good to hear from you after all these months. I believe Gary told me you'd shipped out.

It has not been possible to follow the "Youngblood" thing further because the people I had in that area went west. When I can go there as perhaps, sometimes making a speech, I'll do it.

Nor is it possible to tell you what is now, there being that much too much. Work continues, we make new discoveries, learn new things, find what we had not found earlier, and I, at least, have kept writing. I have not been able to print anything else.

It is not now possible to indicate where you might effectively work in July or August, when you return to civilian life. What is not and significant now may be past then. However, have no doubt that when you have time, there will be much to do.

At that time I think Gary will be better able to counsel you than I

If you have the volumes with you, he might be able to let you to look various things up from time to time.

Those radio call-ins can be a challenge, and any challenge is stimulating and, when adequately met, satisfying.

Have a good year, and then ks for writing.

Sincerely,

Dear Harold,

Hi! Remember me? I doubt if you will since I haven't written for so long. It's not because I didn't want to write, but rather because it's been rather busy around here. We are pulling out this Friday for a 7 month mediterranean cruise. I get out of the Navy as soon as we get back, so I'm looking forward to that!!

One of the reasons I've written is to ask you what has turned up concerning Youngblood. Especially concerning the pictures of "Jack" youngblood I sent you?? Anything from Nancy Rich??

Also, how about lining me up with an area to work in concerning the case, when I get out. I'll have some spare time, even while I'm in college, so I could do some work in this respect.

By the way, I was home on leave and while there, I was on an all night radio call-in show discussing the case. It was really interesting and quite a bit of favorable response. You've probably been on a dozen of them, huh? I like the call-in programs better than the regular taped interview show.

Let me know of anything new that has developed. Take care and write soon.

Sincerely yours,

Larry W. Ernst
