Dear Mr. Evica,

<sup>White</sup> I asked you who put you up to that planned "scholarly" paper on me as a government disinformation agent your answer, if that is what it really was, is that HARRS and White had.

I again indicated my disbelief and of those two, I think I told you I know of no reason why either would believe that.

I've had no contact with HARRS and my last with Jack White was almost a decade ago. They also have not been in contact with me.

Yesterday I had a call from a man who is both White's friend and mine.

He told me that anything such as you gave me to believe coming from White is contradicted by all he knows about White and by all White was ever said of me.

I repeat: I question your honesty in this matter.

You did not attach those letters you cited to any letter to me, but you did to letters to Rose and Drago.

I repeat: I've never heard of anyone other than Harry Livingstone offering any such opinion about me. I am confident that if either HARRS or White had it would have come back to me.

So I take, perhaps waste, this time to give you still another chance to make an honest man's effort to establish his personal and professional integrity.

One way is to send me copies of all you have, save for the letter Wrono wrote you, of which you sent me a copy, on this matter and the other is to make a forthright response, no evasions or ittelevancies, on whether directly or indirectly Livingstone was the one who put you up to it.

Sincerely,

  
Harold Weisberg
