Dear Mr. Flores,

Thanks for your letter. Your order herewith.

A work of fiction pretending it was non-fiction said that The Invaders, an in-
formal group, was guarding King. The rest of what you say about ^{him} then abandoning ^{him} is not
true, so question your source.

What you next say about Holloman is garbled. There had been a threat against
the policeman Ridditt.

The Murkin Conspiracy is crap.

I'm not well, haven't been for years, so I could not return to Tiger.

And I hope you can understand that when I'm also almost 78 I have little time
for letters/

Especially when you ask me many questions about what I've already told you
is no good, a fake, Farewell America!

Thank for your good wishes.

By the way, patriot of La Borenquena, did you ever know or hear of Gilbert
Concepcion de Gracia? He was my good compadre.

Dear Dr. Weisberg,
Just this moment finished reading "Frame-Up" and I must confess that I am shocked that both defense and prosecution actually got away with what they did. I am also impressed by the quantity of the "nuts and bolts" that were included. I truly marvel at your resourcefulness

In some of the literature that I have read there is mention of a group known as either the "Intruders" or the "Marauders" who were supposedly guarding Dr. King. Allegedly they received a phone call and without any explanation abandoned the Lorraine Hotel just moments before the fatal shot. You made no mention of this. Why?

A item: a meeting supposedly took place between Holloman a black fireman or policeman who was going to be on duty at the time of the fatal shot and an unnamed third party. Holloman supposedly introduced his black employee to the unnamed third party with the words, "This agent from Washington

has just informed me that a threat has been made against your life and because of this, we are going to transfer you to another station for your own protection." The "agent from Washington" never spoke. Was this fireman or policeman the one who Reddeck or his partner were inquiring about? I believe his name was Hall. You didn't mention this meeting. Why?

Since you published, have you been able to track down Raoul Illanek? What have you been able to find out about Raoul Esquivel? Has the tramp in the photo been identified? Did Ray ever turn over those phone #'s he wanted checked out to Fensterwald? If so did Dud check them out? Did Ray ever name names to Dud? After 23 yrs since the deed was done do you still feel the need for anonymity regarding those who had foreknowledge of the crime? Why? Did Devel ever disclose what he knew? What can you tell me about the Davis Detective Agency of Los Angeles? I have heard Mark Lane allege that this agency knows a great deal. Was Lawrence Howard Sr. the young Mexican who was seen

constantly with Oswald in New Orleans?
Did Dad ever publish a book on the case?

Author-newsletter publisher Paul Hoch recommends highly "The Bluerkin Conspiracy" by Phil Melanson. Are you familiar with it and if so what is your opinion? When will "Eiger to Rich" be published?

You advise that I keep away from the Herve La Blarce / James Hepburn book "Farewell America". Why? Robert Grodin says it is a very important book written by someone who has intimate knowledge of the C. I. D. and of the power structure that rules and runs America. What can you tell me about La Blarce? Why did he have to write this book under a pseudonym? What is the significance in Turner having furnished it to Harrison? Have you read Turner's "The Herring Is Red"? If so your opinion sir

Finally (and I'm sure to your great relief) I can the good doctor recommend to me a number of bookstores that I could write to in my quest to acquire additional reading material of this jonnax

God bless you and keep you
alive and well in your endeavors. I am
waiting at the mouth in anticipation of your
reply, I remain

Yours truly,
Pete Flores

I bid you peace

P.S. Would you dedicate my next
copies to CIBACUYO, A PUERTO
RICAN PATRIOT WHO GIVES A
DAMN. (CIBACUYO IS MY NICKNAME)

P.P.S. Why have I never heard
of any book being published regarding
the attempted assassination of George
Wallace?

P.P.P.S. Please keep me in mind in
case you or your friends and colleagues
should run across Oswald in New
Orleans.
