

*Dr. and Mrs. Bud Fayne*

130 EAST 63RD STREET  
NEW YORK, N. Y. 10021

December 3, 1967

Harold Weisberg  
Hyattstown Md., 20734

Dear Mr. Harold Weisberg:

I have had your book "WHITE WAHH" ever since it was first published. It was sent to me by a dear dear friend Richard Cardinal Cushing.

He told me he had received it from New Orleans, this book was read to me (and you can see why I could not read it myself.)

I adored J. F. K. and I am enclosing a cartoon that I made for his campaign.

From the day of his assassination I have gone rapidly down hill and my health doesn't stop deteriorating.

You are a very erudite man and I have a gigantic feeling of gratitude that you are writing these books.

In December of 1963--- about a month after the assassination I was trying some new kind of treatment.

An East Indian gentleman came to my house one day and mixed a concoction of fruit and vegetable in a waring blender and he told me to drink it down at once. I did and strange things happened.

My husband was in the room and so was a friend of ours, an Actor. After about ten minutes I seem to lose all consciousness but I did not faint. I just wasn't aware of who I was in relation to reality, I had no knowledge of events it was a complete feeling of utter disorientation.

I asked my husband if John Kennedy was dead and he said yes and I asked him how he died he said he had been killed. And I asked him who did it and he replied, "Lee Harvey Oswald".

I said, "No he didn't do it". Then my husband asked me who did it and I said a man had it done, the man's name was H. L. Hunt.

Now, years later, you are bothering to search for the truth. I am sure that much will be found out and you are certainly on the right track!

I wish to inform you if ever you want to see me or talk to me you are most welcome, my telephone number is unlisted it is TE 8-8678.

Thank you and bless you.

Regina Brand Fayne

P.S.

The thing that prompted this letter was seeing you on last night Joe Pyne show, I wouldn't miss it for the world. Believe me the Americans who cares about this subject is being awoken to a sense of responsibility. Please keep on don't ever stop.
