Sir:

I wish to thank you for your cordial reply to my inquiry into your published works and to my comments. I frankly am disappointed at your void of confidence in the AIB. Slowly but surely America is waking up and perceiving tyranny of sorts within and above the present American governmental structure. I feel an coordinated and organized ~~revolution~~ revelation of the truths and the blatant cover up attempts of the J.F.K. murder can form a solidarity of acknowledged mis-informed Americans who could in turn demand a "fence-sitting" Congress to act accordingly. As you will agree the "spooks" play with our heads - through the Press & communications systems and have done, I think, a fantastic job on their part. Those few of us who perceive what is going on ~~and~~ ^{with} the realization that our basic freedoms are in jeopardy must unite. I feel single-handed anti-establishmentarianism will never accomplish this. Sir, I hold you in the highest esteem due to your dedicated research into the J.F.K. murder and the just destruction you have accomplished in

the credibility of the Warren Commission Report.
I will consider your comments towards
the AIB but frankly can not see
any other organization at the moment to
ideologically fight the "spooks" before the
eyes and ears of the American public.

ACTION MUST BE TAKEN NOW. Look at
the Rockefeller Commission to Investigate the CIA.
It is the Warren Commission all over again.
Look again at our Presidential cabinet. It
is pure Rockefeller: Kissinger, Schlesinger,
and Levy to mention a few. When will
Jerry be told to step down? So few see
it and so many refuse to see it.
As for your final ~~comment~~ comment
"If they worked for the spooks they could
serve the spooks no better," you may be
correct but how else can we act.

Thank you.
