Dear Mr. Weisberg,

I hope this letter finds you well.

I just purchased a copy of Case Open and pulled down my copy of Posner's work. When I started reading Case Closed. I annotated so many notes against what he was writing and the misinformation he presented. I had forgotten how bad this bag was and how much of a defence of the Commission's theories its presented as fresh.

I even had a notation Randon House has historic CIA connections.

It is my pleasure to be able to write to you. I finally located a May 1967 of Whitewash 2 in paperback two months ago. After reading about your work for so many years. Reading your words which are still as true as then. Made me realize how much hasn't been revealed even after thirty years.

I was in high school in a drama class when JFK was assassinated. Strangely, we were doing a play on the assassination of Abraham Lincoln and I was John Wilkes Booth. Like everyone I was in shock and then to see Oswald gunned down on live TV. It has left an impression on me all these years.

Like most american's I bought into the Warren Report. It was Lattimer's Kennedy and Lincoln that got me into reading about the assassination. Now with your book, my collection has reached 53, and I know I will never read or hear truth.

I am interested in a copy of Whitewash. Please send me a price so I can purchase it,

Thank you for your search for the truth.
