Mr. Penn Jones
Texas Mirror
Midlothian, Texas

Dear Mr. Jones:

My daughter has sent me a clipping of the report on your address to the students at Southwest Texas State in San Marcos, Texas.

I consider the leaders you attack to be some of the great patriots of our time.

Certainly, J. Edgar Hoover and his Federal Bureau of Investigation have been one of the safeguards of our freedom for several decades. To refer to him personally as "in charge of the killing" of John Kennedy is so assinine and stupid as to insult the intelligence of the most naive.

President Nixon and past-president Johnson have made contributions of service above and beyond the call of duty.

You are doing a great disservice to our beloved country in throwing such rotten charges at these people and poisoning the minds of our youth with such ridiculous assertions.

May God have mercy on your soul.

Sincerely,

BOB COOPER
