A United Press International release dated 2/25/66 indicated that Jay Schwartz, a Kenosha, Wisconsin, attorney, during the 18th annual meeting of the American Academy of Forensic Sciences, criticized Federal authorities for removing the late President Kennedy's body from Parkland Hospital in Dallas, Texas, thus violating protocol, and for failing to corroborate the autopsy report. Schwartz also reportedly said that the Commission's report (Warren Commission) was based on evidence inadmissible in a court of law and "put a rubber stamp of approval" on a report by the FBI.

INFORMATION IN BUFILES:

Bufiles indicate that an individual probably identical with Schwartz was on active duty with the United States Army in 1960 and served as a Legal Officer in the Hampton Roads Army Terminal in Virginia. At that time Schwartz was married to one Janet Kaufman Schwartz
