

JDW, HR: Couples of unrelated pre-bed hasties while I finish a drink with which I'm trying to relax and experiment with what I hope will be a better typing rest for the left leg: wooden box from Yquem wine. While he may have ~~forgot~~ forgotten it as I had when I was with him, the doctor today pronounced my left leg much improved. Last time he saw me was when I returned from Belin confrontation unable to get shoes on. So, almost anything can be better. However, while it swells easily and from "ill" regular measurements seems to remain about the same size, I know I can move better. From chemical tests anti-coagulant reduced by 1/6, which I take to be good....While in DC I went to the Hill and left with black caucus sponsorship (Conyers made arrangements and Dellums may be in) for Kinf press conference now set for bad time 9 a.m. Thursday. Hearings of members one problem. Early hour for press another. But it will be in a Congressional hearing room for which Conyers arranged while I was with him. He is also writing special letter to selected members both houses. It conflicts with Edwards hearing but I can delay no longer. With NYTimes, WxPost and CBS running dogs for DJ, there may not be an entirely cordial reception but I've the facts and they are new and official. Floyd, who was present and flabbergasted at how easily it went off after he had not been able to get past palace guard and knows it was improvised without appointment, is euphoric. I hope it remains justified. The situations are getting tough, particularly with the situation in which DJ is despite Levi's hokum....I'm not going to have time to prepare so I'll ad lib with what I'd put together. Too tired to wrap today's orders, there will be tomorrow's, and I'm going to have to try to find some way of napping tomorrow. I'll have to leave here early a.m. and I've almost trained myself to sleep until day is about to break....Conyers was magnificent in every way, asking only what do you want ~~me~~ me to do when I'd asked nothing. I do hope it comes off well, despite hour and competition, and Yquem is better than anything I've used to now. Best, HW 12/9/75
