~~██████~~ JFK assassination tickler

This teletype reports what was told the Dallas Field Office by Engene P. Aldredge, his observation of the mark left by a bullet that hit the sidewalk where the point of origin could not possibly have been where ^{allegedly} Oswald was.

I have appealed the withholding of other relevant records.

A note was added to this HQ record directing a copy to the tickler.

The tickler has not been provided.

I appeal the withholding.

The concluding sentence is relevant to my prior appeal. It reflects that no further investigation would be conducted unless directed. Further investigation was conducted.

I do not recall seeing any copy of any directive for any further investigation yet twice thereafter Dallas sent samples to the Lab in Washington for testing, the results of which I also have not seen.
