

Intro - update, present status & how the
new defense developed

JETH, FBI controlled - / needles - drugs personal
life - + as black in air to eliminate black
presence in investigation - ^{not} caused King to
return to Memphis - leaks vs suit

no immediate solution - political need for
one - immediate cover up by surgeon
plant evidence + creating false witness
while suppressing actual witness JETH ego

evidence suppressed invented mis-
represented, non-existent & all falsifiable
evidence disproved all allegations vs King

Lawyers. Hanes & Huey, Hanes & ~~W~~ tradition
Look Articles + King letter to Battle - ~~1st~~
hold how we got in separate use; Huey +
Jerry. Forum an - whole story from
ambulance chasing to bribery to the new
case see explanation ^{for} ~~the~~ letter

2
Constitutional issues - incarceration, surveillance
Begin with Buthe at end ministerial
Hans did not appeal any more But, filed
discovery a book was a story of extraordinary
long.

How all judges ad dependent as how
one & political they were. Work in prosecutor
blame many judges. Can be retirement.
For help a part of great most of lawyers
Built up to 6th circuit system
working while handling a ~~pile~~ pile
of ~~system~~ work in all other
way

Try to work out a structure in
which the actual when all is all
together a great in talking the
story of ~~its~~ its suppression. The
actual story of the crime is told
to the degree possible. This is held to
the end and the book builds to this
perhaps best.

3)

Perhaps, best to begin this part with story of mid. hwy. & the evidence I had to then develop with McDade's treatment, fails dirty tricks & lies to CIA stuff, telling this in chronological ~~rather than~~ sequence Inc. No. 10 at least two chapters & end this chapter with press party

Still handling chronologically to 1996 ~~the~~ tells story of newswriting in telling FBI DeLoach & DPs as sub theme so that the detour makes to suppress & violation of the law point up the evidence to its meaning after meeting. This evidence precking it down logically rather than chronologically as short, strong indictment of the "law & order" long is appropriate. Consider including whole text & implies from all suits perhaps as a separate sub chapter that while it is a documentation of federal policies can be up beat on the Congress & the American history of the law over time, legal history - Emigante. But no clutter

4) panels of re-writing of how in court.
Since, Panchen, Pratt - each can
conception he could be destroying official
mythologies. Let it come out on well
By then we'll know about
Judge Green

If we handle the parts suggested
as chronological & there is a 6th
decision it will fit naturally how
it fits.

As with all JFK Docs + Fall, all
contingencies must be & can be anticipated

In telling story of evidence my
use most important of exculpatory evidence
In the new evidence & part show that
is confirms all & that is why it was
never covered or rebutted. FBI did
not defend itself, here or in FU which
charged perjury & this process

5) new evidence includes

Ballistic - which proves bullet not
fired from rifle of FBI #1120
Use as many facts in files as possible
& ask Dept if ~~not~~ in text

Use FBI pix of fatal slug as evidence -
I am one FBI Reports which ~~the~~
~~not~~ were not provided to
interfere, comparison micro-
scope pix not given use Grazien
on how done from his coll testimony -
Mac's in one here - yet provided
on breach face, which is irrelevant
unless shot came from that rifle.

Adaptation of windows & mic.
Microscopic - buffed & etched -
yet not provided. Then include
in fact write FBI report ~~about~~
which say it is impossible (have
quote from all speech to far, as most
definite statement (consider buying
rights to low memory of pictures &
use samples in here with FBI pix)
also do this with finding of p fig &

Montgomery means it use with
could fake use in but a different F-11
time clock of time there & handling
(morning of pkg by police)

In this that hand of window use
all destructive gear (carry a rifle
- and see FB / How?)

They go into impossibility of rifle
& man fitting in space & how
ridiculous man with bare top.
One Mat. Ref. go on on impossibility
of accurate shooting with solid
rest - vibrations wind up this part
~~anticipate new form~~

with actual picture showing window
almost closed of object what like
case

Close with FBI statement it is
no ~~antenna~~ ^{holes} scene crime
fix with post ridiculous of this as
accounted FBI & then tick off list
of those I know they have & how
may get them. I include some of
what they show? & Little's not using?

7) Then Apertno & all AA files - & show
how they are fake with facsimiles
from Jour. En. Sciences & what I got,
from AEC as samples. Show what is
missing, had to be done & surely was a
what is worse, wasn't & willing to
bring clothes, & patches of damage
from explosion of bullet never admitted
& then go into medical examiner
& his perjury with out which
Ray would not have been framed.
Use facsimiles of his testimony in
hand of autopsy, & so got only
big suit; Explain palpable
impossibility of all his testimony
(with Faerman & his fleeing me
in?) his "investigation" Hit McRae
on not "unfriendly witness" when he
was state's!

Wrap up by taking all the file
work in & reporting it in all other
than presented, all H & W putatory
& not incriminating - & the FBI
to new, Mr DJ know, the AD
Hew - the prosec. at the promotion of

8) Know. Public Defender did not know (oh, well, he became DA any way). From or about know a case.

This leads to his record - the cheap? Esp when he lost the - and later was charged with obstructing justice by taking 100,000 to file a case against his alleged client (with Jerry for copies facsimiles to use)

Then explain what seems probable about the airline - contract job by well-financed client but organized committee for a contest. Here also explain how crime was actually committed. He is one of ~~USA~~ what may be a human box of needs to hold back part of evidence being huge evidence to use at airport of labels. He is on when + two of human leg directly boxes of pkg - 2 each any of enjoying can this

9/ ask Debra about extensive use of
pieces in text, often in juxtaposition
with Hanes on contract that required

What do we do with ^{major} media - attack
hard, pick some only out, ignore?
