Dear ir. Johison,
Dear ir. Johison,

It has hou beon sore than a month aince you wroto that you had roferred my requast for help in seustnc ficimessedoctrine time of the herv Grifilin Show to our m. Ary. Io this day I havo heari nothing from anybody.

Does not auoh delay alone on topical subjecta of national interost wis the political assassinations and espocial y the cases of Dr. King and Jemea Larl kay and the performance of the inatitution of eocioty malco the doctrin neaningless? Lo \& at all the tine it took before I wrote you? then the effort is to conroct talse information eivin the peopae, carl one oven hope to satch up with the 21 os?

Since tien Jin Bishop has bean getting a bla play with his soose-grease-in-iype on tho scale subject. Hes İrut apjearance of which I lnow was on the David Frost show. ifter I wroto and aaked for equal time, adding a few coments on the dopths of wre bishop:'s wellpaid imorunce of the aisuplast fact of that of which he writos, inatoad of replijine to me the broat show had him back ugain to defame those ha could, fruging from the Seoret Service, to which he attributad the impossible, the "sanitizind" of Dallas (hence by inference a degreo of $x$-spoomsimbility IOr the JFK assassination), to Dr. King, who he culled a coward. I urote irost a second latter and to date havo had no rosponse.

Uiriting these poople is meaningless. The coulan't care lesa nbout your reculatione and doetrines, wher they wath to set political ideas acoross or espouse a point of view they know wdll bo well recedved in high quarters. I've had a feor responses, usuelly irrolovancies, but sometiaes such things as the suscestion that I write the individual stations!

I am disappointed that your own people pay no litulo attantion to their oun Comisuioner. Havo we cono to this point?

I'd approiato it if you could ind timo to follow this up for ne, ploase.
Sincerely,

Harold Wetsberg
