

Dear Roger,

5/19/93

By now what Helen copied is on the way, priority mail. I had to go to the bank to get cash for her to use the machines for copying. I made a mistake and got her only \$10s, but tomorrow she'll give me receipts I'll enclose. I have no idea what she copied but if you see something really good or Lifton, which means really bad, or hilarious, I'll appreciate a copy.

I heard from him today and having used most of the day not for work I took the time to write him with vigor. I'll read and correct it tomorrow and will send it with his swill.

...If the woman in Florida will send me copies of the KDM file that Lifton got I'll pay her. But not the funeral file, which Rick did not steal. I'll appreciate it, too.

The college protects itself by providing a copier that requires coins or a card that is paid for in advance. I have \$9.20 left on the last card Helen used. Would you like me to see if I can get someone to copy the file on the list that we did not look at? In what I sent you it was after correspondence and before Best Evidence. In which file I saw no analysis by Sylvia.

I have the transcript of what Lundberg said at Chicago if you'd like a copy.

Bill enclosed

Best
Hards
