Dear Roger,

This is in a rush so I can get the student who is due here soon and for a short time only to mail it and save a day.

Please let me know as soon as you can whether you want all Sylvia's Lifton files or if the copying should omit articles, clippings, etc.

That Lifton sickness came to day. I began reading it carefully and then it was too disgusting. So toward the end I was skipping.

Your note and the very end is correct and the proper way to slam the bastard. Also I suggest what I suggested before, get him or demand that he make available those copies of my letters he said were given to him by reviewers along with what he assures is what they ~~we~~ wrote him.

I think that you ought not respond at any length at all. Just say he he is Mr. Mandacity and it would take a book to correct the ~~the~~ false and deceptive and distorted statements he made and that come naturally for him, that being his life and his way and the truth about his book.

They say that instead of responding to your criticism he adopted the way of the bankrupt lawyer who, when he cannot try his case on the facts, seeks to try it on opposing counsel.

Emphasize that he had not made any specific response to your specific criticisms.

You might also ask him to specify any fact in his second-best evidence that is his work and his alone - what was not published years earlier that he presents as his own work when it isn't.

I am taking what for me is the correct approach after reading this wretched stuff by that wretched bastard.

Best,

Hard
