Dear Roger.
Sitting on Atlantic Beach on a nice day (unless ane recalls adr pollution and low water levels) and aatohing up is the equivalemt of what I think of often, workdac outadde here. Wo live in such pribacy I could do it naked and only my wife would know. But who can read my ziting?

I am glad to hoar from you. Hy preaent plam is Dallas on the 10 the
HoCloy did not get where he is by anewering questions of the kind you want answored. $H_{0 p e}$ your quastions and his atlence a a good record.

If CBS was anything other than CBS they would eottle. They are not unique. Jin is handling another comparable to tereme it for me. The rich and the powerful are oftem arrogent and atupd and previal because toy have power, not good manae. And fex tacicie them, nover with pubilio attention. (But if you have any stomies on theiry admisaicon that Ted Kroup was CLA, hils clatm to have beon only a oonduit. I'd like it, kenageat to eet part of thair afred account several days ago. It was when he was Washington Buxaau chief.)

Whan they respond be sure to atas within time limitations. $D_{\text {con }} \mathrm{t}_{\mathrm{t}}$ default.
On Judes Pollaok I sugcest that instread of what you have hoari about hils reputation you consider the interests he aexved in his SSI deodstion, And the reasoning as well as the alleged interpestation of law. It la a deaision that reflects no conern for people. You may find that in him mind ssimeBs, special intereat.

I'm not trying to discourage and do not think you should be discouraged. Just do not be Iullad and talse nothing for granted oxcept that it will be tough.

What CIA has let out about the critios I have. It is far from all. They are ataging tils and auoceeding thin in what I think are their purposes. In these pages there is no connection you can trace to CBS. But the philosophy and the same argaments connect thear. The nem noomequaturs; 11 ko no new evidence.

Thank for the Pexry ausceathans. Xou say you'li call. Here is my approximate schedule:

I do nat expeot to be away this woek. I do expect both Les Payne and Prof. Dave Vrone.
I' 21 be in Washington a weak from Tuasday, $6 / 7$. I way go there the day before. Don't know yet. Hall is to teatify then. $H_{0}$ 'I1 atring out the fif the but $I$ want to hear the quastions. Also, a dear friend is much involved, Axt Kevin, Investigative reporter for aadio Station EAPC. The comanttee tricked Art into delivering Hall for a antupoena in the guise of a fritendiy intarview at which Hall $_{\text {all }}$ could have hia own witneas, Arte Hall then refuad to talk to theas Thoy are trying to lead hin into a trap. They have what can be taken many waye and they' 11 take one way and they' 11 use it on him. What is not nutty I'm sure they have not workod out to its end. I do not expect this to be the first there they do not go off hall-cociced.

Whatever time $I$ am in Vaehington I'll probably be home the night of the 7th. And except for soelng to it that wy wife has grocexles until I leave the asme of the loth, I may continue on to Callf. I expect to. I" 11 probably be gone for two veoks.

I don't see your point on the administrationof the drug JFK required and Carrico. Carrico knew the man was daed. I'm sure he also knew of the adrenalin deficiancy. So what if puriciey told him to and gave it to him, tha latter being wy recollection? Hy impression of Carrico is that he is absolytely straight. He was with mee. But I do not eee the significance of the quention. If I got no further explanation and do got to see him I'li ask. Seaing him is ralated to yy purposes if the question is not. Ditto with Perry.

I'11 be staying with ${ }^{\prime}$ 年 Tague, who is boing very helpful about all of this.
$B_{\text {emember, this is in connection with my suit for the JFK sedentific tertas. Not in }}$ conncotrion with new investigations, hapiry as I am with anythiar new. I'm referring about putposes, not limitations,
