

Dear Roger,

10/21/93

Here is a little on Posner, Wall Street litigator, as you'll see, including the current Martindale & Hubbell.

He has himself going to three different law schools!

And with only one and more than one client in his nothing Mengele case. He says that ended because you cannot sue a foreign government in the US. False, as he should have learned in law school and dubious because if he did not know his first research should have taught him that. Besides which, The <sup>Swedish</sup> family of a USSR victim, Wallenberg did sue the USSR government and got an award of \$25 million.

It & II gives his current law-practise address as 515 Madison Ave.

The firm he did start was Posner & Ferrara.

The one Mengele survivor he says he did represent is David Berkowitz. I wonder if that 20% of US sales was to repay what Berkowitz advanced that financed Posner's original work that yielded 25,000 documents.

I wonder also what kind of school Cannon is and how he got there from the Bay area of Calif and why he did not go to a law school there, as he said he did.

I've now got it all in draft save this chapter. Hope you can give me the results of the checks you made, your sources, and that you can find ~~time~~ time and have the interest to check more. I think you can use these in your project so I sent them.

Best,

*Hardy*

Be nice if Berkowitz lives and could be found and spoken to
