## 7/10/94

Dear Roger,

I've been sent a copy of a research paper that includes who the man in the TSBD doorway was. It quotes Groden as using pictures to prove it was not Lovelady. The pictures include a still from the overexposed portion of the <sup>M</sup>artin/DCA film. If also refers to Mobert presenting this as his own work, including even the imperfections in Oswald's shirt.

I do not mind that all of this was either my work or work I had asked him to do for me. I did ask him to search that "artin footage to see if there was a picture of Lovelady in it. That was after I and I alone brought to light the fact that the FBI lied about the shirt Lovelady wore that day and gave an accurate description of it from Lovelady's wife. Nor do I really mind that after some time had passed Robert told me it was an illusion, that by some kind of enchancement he had disclovered that the man in the dorrway was in fact wearing the shirt Mrs. Lovelady described to me. It is not the first lime he used my work as his, it probably wong't be the last time, and he has no monoploy on that. I'm used to it and usually pay no attention to it.

But it made me wonder still again what kind of person he is.

I've taken some time and gone to a little expense to be helpful to him in his lawsuit. I did not send you my expenses, as you told me to. and I did it despite the validity of the critifisms Po sner made of RoberT and his work. When the time I used was time from work I want to do and will not be able to do by that much.

And in return he is too cheap or too thoughtless to send me a copy of his book. Of course it is possible he does not want me to know some of what is in it. But if I really cared I'd have bought it.

His telling me the opposite of what he says in his book about those pictures, about that work he did for me, is not important save as a measure of him. I wanted it for the record for history and in the event I ever reprinted Whitewash II. Now that is beyond me. In what I was sent is faithful to what he says in his book, the the meaning of his telling me the opposite is pretty cldar. Again what kind of person he has become.

The kind who is too chap, too thoughtless and so indifferent to the ways dement people usually behave toward those who taketime and go to a little cost when be conduct toward me does not justify my helping him at all.

As you may know, he did his original work on the Zapruder film for me and the idea of duplicating fiftames for slow motion was mine. He went farthur than <sup>1</sup>"thought was necessary in this on his own but the idea was mine, not his. He and er Chris came here from Hopelawn weekend after weekend when they were good epople without exactled selfconcepts. Those were innumerable weekends I was denied my own work. And we then liked them enough to have them that often and to agree to be the godparents of his first-born. Putting up with Robert's eating habits were not all that easy far Lil.

He even promised to make for 'f' the slides I wanted from the original Zapruder film. I got Lesar to sue and when the time came to do it, after I got Zapruder's agreement, he

copped out. <sup>G</sup>iving him, I suppose, a monolpoly on the individual frames flor study because <sup>I</sup> could not, as he know to begin with pay the Archives' charges for thwt. And he led me into all that time and trouble and copped out when the time came without so much as a pro forma apology.

What a pig he was to beginve this way. Too cheap, to indifferent, to ego-dominated to thoughtless to sand me a copy. But Perhaps he knows that were I so inclined it colld tear it up. "e remains basically a subject-matter ignoramus, as I'm sure his book reflects.

And whe you promised me to send me a copy of the RH response to the affidavit I aigned and you then did not and I asked instead for just a page to identify it and the nasty footnote about me and in all this time you have done neither, I can only wonder if you are getting like the company you keep.

No, I've not included him in the largely complete draft of Inside the JFK Assassination Indistry and I'm well past the point that would have been appropriate. Moreover, I don't he is important enough, since I cannot include all. But this thoughtlessness may yet tempt me behause he has spread that much disinformation and because beginning with the book he did with Hodel they did use my work extensively as their own - and misused it.

Eve ff I were tempted whether I'd still have the energy would be a question.

I've grown even weaker since an auto accident in which I was shalkn up quite a bit, with extensive damage to my car. I've been subpoeneed as a witness for the State against the woman who was charged, trial day after tomorrow. But my already damaged legs were damaged and this past week they were subject to extensive koppler examinations to determine whether additio al circulatory problems were caused. The symptoms are that they were.

1 do resent being taken advatnage of for the first time in my life. That is because less of it remains and I want to use what remains for my own work.

I'm corry, too, that you also can take an old man's time and then not keep your word when keeping it entailed so little time and effort.

We've had to preserve a consistent policy with the books we published. But those we did not I got to send to all those I remembered having helped in any way. In time I'll he charged for about 140 of them. I bought them to do what I bedieve it right and until, slowly as it was for her to make and mail the packages with all else I had to do, I did that except where I heard that those I intended sending copies wrote that they had copies.

Is it safe, not having heard from you, to assume that no response has yet been filed? Or are you too busy for that, too.

Harry
