Dear Bud,

Thanks for your note of June 22. Enclosed are the slides you wanted. Perhaps rather than reimbursing me for these and the other small batch I sent you, perhaps we can work out some kind of a trade. I can't find my list: what was item b which you asked for?

I would be interested in knowing about any slides you have that I don't, and also about any photos you have. I now have a guy who can copy photos, or print negatives out, and could get any I borrowed back to you in a short time. Also, and perhaps more important, I have a guy who has a new technique for pulling out details, and he could do a real good job with something like the Hughes film if I could find a way of borrowing it. If there is something there, he could find it. It seems a shame that his talent is going to waste because I have nothing more to give him to do.

I am working on a few congressmen and making some headway. I will tell you when I am sure of their views. I have some supporters out here who throw weight around, so things are beginning to look up.

I will be making a trip to Dallas in the second half of this month, and taking with me a good photographer and Don Olson, another critic who knows the films (his thesis topic) and physical evidence well. If there is anything I can do for you there please let me know. This will be a cleanup operation for several of the other critics. Also, I would greatly appreciate info on contacting those in Dallas or in Texas as a whole who are working on the case. Except for Penn, I have no contacts there. I also need info on cheap places to stay, since we will be there a week.

Penn Jones must have been on his tour of the Orient when you were there. He has written much about it in the Mirror. The last I heard, from just before he took off from Calif. he had me, you, Harold, Vince, and Ray Marcus pegged as agents. In fact, I am not sure about even contacting h-m when I am there.

Fred Newcomb's opinions are very changeable. After the Turner-Boxley affair he was very suspicious of anyone new on the case, as all of us were. Dave Lifton made a big deal of the fact that the organization's initials spelled out CIA, and they both told me about that on the phone. Fred mentioned having had a nice dinner at your expense.

Well, I'd better close now. Best wishes.

Gary
