

12/28/69

ar Bud,

If I have forgotten to ask you and if you have gotten the printouts and microfilms from Bellard, ~~the~~ would you please lend Paul ~~the~~ the Texas microfilm? The small reel of miscellaneous microfilm is his. The FPCC film is mine. Paul would also like to have the FPCC printout to go over and see what he might want in it. The printout of the reel of Paul's film is mine. You might like to go over it and copy anything in it you may want.

If you want a copy of the COUP add, or the first part, please tell Paul, who will be having a limited number made, for those I have said I have it.

In Baltimore, an attorney named Zimmer has filed affidavits in court saying two of his clients (commissioned officers) attended an assassination school at Ft. Belvoir. I'd like copies very much, if you have a friend in Baltimore who can get them.

I was able to get out to the road today, making a path part of the way and detouring through a neighbor's, ~~where the wind had cleared the snow,~~ the rest of the way. So, if it is not too icy in the morning, I'll get to the mail box. A bulldozer was due through late this p.m., so I assume the road is open and the mail will come and go. I doubt if I'll be able to dig enough to get the car out tomorrow. I am taking that easy and the snow is deep. If the fuel-oil truck comes and can buck its way in, I'll have to dig only between his tire tracks, which will be less. Ah to be a young man of 45 again!

Sincerely,
