Dear Bud,

I gave Jerry Gondolfo's address in Jersey City, but there is no listed phone. I've asked Jerry to telegraph him and, if there is not an immediate response, he's going to place a classified ad in the Times, asking for a tape of that show (his idea).

One thing I forgot to tell you and I think Jerry forgot in his note. He confirmed it tonight.

Fpreman's standard practise on these shows is to sit and beam in silence, not to volunteer. There was discussion of the Angela Davis case. He sat silently. One of them turned to him and commented on his silence. His reply was that it was improper to discuss a pending case!

I've written Bob and told him of the sending of the rifle and of my coming. Thus, should there be something he might want me to do, he'll be able to ask it of me.

No extension of time was recorded. But Werdig had asked for it informally, not the month he kept pressing on me but until next week. The judge's secretary told me.

Sincerely,
