

United States Senate

WASHINGTON, D.C. 20510

January 22, 1971

Dear Harold,

Enclosed is a list of the newly declassified complete CDs which I recently examined in great haste. As first glance, most of it appears to me to be junk, even that part which is not reprinted in the volumes.

When he was here, Richard Levine left a note which reads: "Hervé Lamare, 8 rue des Dames, Augustines, Neuilly, France, 2nd floor--under name of Williams, Telephone No. MER-4680." I doubt Richard will take the time to write up anything on his visit with Lamare, but if you want to make a personal request, his address is 1319 Rutledge, Madison, Wis.

Through a friend I am in touch with a library which might pay money now in return for future deposition of the Committee's files. The same might apply to you, and I think your files would be worth more. I don't know what money figure they would consider, but remind me sometime to discuss the idea with you.

Yours,

jim

P.S. Think Chapter 4 of Frame-up should have added to its heading: "None of the evidence not in the transcript will be available to anyone." Perhaps in a future edition.
