Moreover, we can't delay this not only because she will have to return the machine you probably saw, that she borrowed from her office now that tax season has come but because she will have to develop mechanical facility with the new keyboard and type of machine before she gets as busy as she soon will be.

Thanks.

Returning to the Rays again, there is much we do not know, much that is and probably will remain mystery. The one thing we do know is that we have to cope with Jerry, whether he is verbal or just inept. We have every reason to believe this means coping with Stoner and his stormtroopers and there is a possibility that except for adding his own touches Jerry follows Jimmy's bidding.

So, I think I should know in all the detail possible anything that relates to him and to this situation, whether or not Jimmy seems to be truthful about it. Because I have learned some already and knew about the current ploy when it was born, I think it would be good if you could record any conversations about this. Or, that you follow your usual practise and record all of it.

Also, it is now not impossible that we will be able to break this thing. We should therefore be as well prepared as possible to counter anything, whether it come from evil or ineptness or any other inspiration. This requires knowing as much as we can about matters like the above and having time to puzzle out and fit together.

Hope your trip is successful. I don't think this is a propitious time to try to encourage Jimmy to fill us in, but if he is willing to accept suggestions, bring back all you can because we have accumulated much and we will, hopefully, have a future for which to prepare. We don't want to get kicked in the teeth in open court. Jimmy has shown no recognition of the importance of things like this, whether or not he is aware.

And all his "friends" are better off with him their martyr, which he also does not recognize.

Hope you have a good trip.

Sincerely,
