

Dear Bud,

4/23/76

Yesterday you said you do not have a copy of the index to Oswald in New Orleans. Sprague and Berkeley were to have given this to you years ago. My carbon is enclosed. You can copy it and return it at your leisure. No hurry. But it is my only copy outside the index cards. I have no filing cabinet for them so it is awkward to use them.

In fact, I have had all the cards of all the indexes for all my books consolidated. They are in boxes. I can't afford a file cabinet for them. If I could and if I could get someone to consolidate the cards it would be a useful research tool.

I also have a copy of the index to Whitewash II if you'd like it.

Casper didn't use the appendix to O in HO. I have it if you'd like to make a copy. All references in the index past the text, as I recall about p. 402 or 3, are to this appendix.

I had a tape from Jerry today. I'd suggested that this would be easier for him than writing and might tell me more. I don't. You'll be able to understand what little that is relevant from the carbon of what I've written him, also enclosed. No need to return it. I'd made it for a duplicate filing that isn't necessary.

I don't think listening to the tape is worth 15 minutes but you are welcome to. I'll be taking it to Jim because of the minor restriction on Jimmy's visiting rights, one of the picnic area only.

You were going to give me the CIA's list of the non-released documents yesterday but we both forgot it. I'd still like it. If you can't copy it for me let me know and I'll buy it from CIA.

When I can get to it I'll be going over all these records. I have seen already indications of what Russell did not pick up and I've not heard mentioned. I'll see if the other documents confirm this whenever I can find time to read them.

If you want to talk to me about anything I'll be in town again 5/5, when we have a calendar call.

There may be more on CIA by: then. Or Ray, who appears to have told you one thing and Jerry something else.

When you speak to your Hall friends I've received none of the hearings, neither House nor Senate other than Church Vols. 2, 3 and 6.

Sincerely,
