

Dear Bud,

9/25/78

If you have any way of getting copies of any of the HSCA transcripts there are some that are of special interest to me because of their potential uses in court cases. For the others I can await printed copies.

These are Baden, Guinn, Hart and Helms.

The committee releases you gave me were helpful. I'm put some to use already. If you can get any others they also may be useful.

In some of these appearances people are dropping things they appear not to be aware of.

To the degree possible I'm taking it all in. But I get interrupted, often by long phone calls, and miss much. The Enquirer, for one, is off on one of its big-rush deals I'm trying to keep within reason.

I try to make notes but they can't be inclusive and can't be depended on for accuracy.

They'll use as a guide for the future.

If you have anything I'll be down Thursday for an FOIA status call. Dave ~~NEANE~~ Wrone will be coming up a day or two after that.

Don't ignore copies of any of this weeks stuff, please.

Best,
