

MF

Later 9/16. John Ray has in the past told me a strange story about a man known to him as "Carmel". He has not written me to tell me that on page 151 of the Dell edition of Turner's Hoover's FBI" there is an account of one who seems like the same person but whose name Bill gives as Frank Lawrence Spreng (as best I can make out John's writing). I haven't seen Bill's book in any edition. John had told me that Carmel was also known as Spring and Springler. Does any of this mean anything to you? The guy suddenly appears as John's cellmate as soon as John was arrested and allegedly knew more about John than John remembered. Seems to have been busted on an auto charge but to have been involved in a wierdo airplane accident somehow, in a way I don't recall clearly, involving Mexico. HW
