Dear Mary,

Our sympathies to you both! What a monster that Livingstone is! I've not seen the book but Bob Artwohl sent me xeroxes of the pages on me and I'll be writing about them. But as I told you, the states attorney here has a file and the enclosed adds to it. Frederick book dealers have good sense; not one stocks that book!

If he spent 30 pages on Bob, what did he not on you?

From the little I've seen, on these few pages Bob sent, it is apparent to me that there are those in Dallas who may well have violated some law in what they fed him. Even if some may have been lawyers.

It is a lie, for example that Hunt ever gave me anything ^{money}. Rothermel paid for my air fare, which Louis Iván would have, when Louis asked me to take a copy of Farewell America in manuscript to him. I never had a manuscript copy of my own. That was when I was there in 1968 with Matt Herron and a British reporter. That had to come from Paul unless Sue made it up. Or others of whom I do not know. But feeding defamatory lies to be published should be some kind of crime and I hope you (plural) can find some way of giving them all what they deserve.

The old man did give me a grocery bag of his propaganda. I was en route to Dave Wronne's to speak and gave it all to his students. They loved it!

I know that whatever the monster said about you must hurt very much. I hope you and Buck are taking it as well as you can.

And if anyone down there writes anything about this I'll appreciate copies.

Our love,

Harold
