Dear Mary,

Instead of a card, for which in years we have not had time, I do hope that all is going as well as it can with you and Buck. And that the Livingstone evil is receding.

I've had surprisingly little reaction to it. It convinces me what I'd believed from his and his publisher's account of it that there is not all that much interest in it. I've had not a single nasty letter, not a ~~single~~ single media inquiry, not a single review sent me, and a couple of letters asking me the truth because they just did not believe that crazy man's crazy book.

Even those strange people of his clique have been silent.

I have not heard of him being on a single talk show, either. Of course he could have been on many but I'm inclined to think if many I'd have heard of it.

I was surprised at Sue Fitch. But then the only contact I had with her was that one time.

Twixt and tween I've completed a lengthy, unread draft of killing the killer of truth himself, so to speak. When I have time I'll read and correct it. I took the time to check what he quoted indicating no omissions and included what he did omit. What he did was not a careless error!

It happens that after finishing NEVER AGAIN! which is now due next September I had started Inside the JFK Assassination Industry, as something long overdue. I began by going over those of my life's experiences that were learning experiences for the work I have done. In the course of it, never dreaming that Harry and Posner would do what they did, I went into those things, but honestly and fully, not with inferences or distortions. So some time before Posner's book was out that was all on paper. So far from being something of which ~~to~~ be ashamed if any of these things I have a file of what the FBI said about them in my "subject" file so those who use that file can see it and do or not do whatever they may like. Both Posner and Livingston's thief of a copy Waybright worked in that file. I've just discovered even more stealing that could have been only by Waybright, by the way. Those who are not honest can omit whatever they want, and do.

My belief is that C & G's libel lawyer took out what could be actionable by those young enough to want to sue and did not care about us older ones because as a practical matter we cannot, absent outside interest and help. I've sought none. Thus they were careful to speak badly aside from us only of the dead. Except for the form, that atrocity has not a single quality of a book. It is sick! I think that probably the only reason they did it is the sales of his earlier trash.

We do hope you are both as good as you can be and that the coming year is as good as it can be to both of you.

Our love,

Harold
