"According to Gerrison, Ferrie first came to his attention on Move, ber 24, 1963, the day Osweld was killed by Jack Ruby".

"Yet Harrison educts that 'Yerrie was not in Dellas at the time of the assessinations."

We have known this for years', " Gerrison said."

Gerrison says he has "no reason to believe that Lee Hervey Osweld killed anybody in Dellas on November 23, 1963". T

The papers slone, pointed in that direction, tried to make it seems as though Ferrie and a plane had to be in Pallas for him to be suspected of any part in or accessory to the assessination. It is Ferrie, ast Gerrison, who said Ferrie was to have been the getaway pilot. How could anyons expect the Pallas sirports not to have been scaled at the time of the assessination, once it was known? Get exact quote
