62-109081-1

Federal Aviation Agency,  
Washington 25, D. C.

Dear [redacted]

The purpose for this letter is two fold. First off I need a small favor, and secondly I have some information for you which may bring to light some very important facts concerning a connection between Oswald the subject who assassinated President Kennedy and Captain David W. Ferris.

First, there is a crack-pot employed at the same place my wife is, who is [redacted] whose name is Virginia. This person lords it over the other employees there declaring that she is a Special Informant for the F.B.I. In fact, this screw-ball reported my wife, [redacted] as being a communist, just because my wife picks up my mail at our post office box everyday and brings it home...because of the fact that a part of this correspondence comes from outside the U.S., like Canada, England, and even from France, Rome (Vatican), et cetera.

This "B-S" has nearly caused my wife to loose her job...inasmuch as, an un-  
steurious Laystone-Hop-Mutt'n-Jeff, question and answer session followed.

Furthermore, I had qualified as a candidate for the offices (both positions), [redacted] as well as for [redacted] to be brought to vote, dar-  
ing the [redacted] here in Louisiana. How-  
ever, because of this...or primarily because of this, so-called big inves-  
tigation, and the stinking talk it has caused in political circles, I have  
had to withdraw from the election. I would like to know, since when, has  
our Government Agency, the F.B.I. become the Bureau of Inquisition?

Well, [redacted] I'm certain that you know much better than this...as do I. Al-  
though, both my wife and I have suffered needlessly over this, and as well  
known as I am...I feel that such a thing should have been discarded as non-  
sense at once...which it was not. Hence, it is that there should be a good  
old lead-rolling...and same should come from top-staff echelon...in this case,  
the office of J. Edgar Hoover. Will you put in a word on this for me...and  
have this matter cleared at once...Because, if they won't do it themselves,  
I'm going to be forced to have the Federal Courts take action on it to clear  
the air, as it were, because of the gravity of its nature....To say nothing  
of the damages involved.

XEROX  
REC-2, 1963

Secondly, in reference to Ferris, your case records on Ferris show  
that this guy Oswald was a member of Ferris's so-called money CAP Squadron.  
Remember, all of those large group pictures...wasn't his picture in there?

Perhaps you will also remember... Ferris had a bunch of these foreign rifles that he used to train his cadets with... Furthermore, I understand that Ferris had been getting mail from those Cuban people Oswald was connected with... At least this is what [redacted] tells me... He says that [redacted] raised hell with Ferris over having this type of propaganda at his office.

We might also take it into consideration that Ferris was a professional hypnotist... That he used posthypnotic suggestion on his so-called cadets, and also in the private practice of psychology here, when he advertised himself as a "Ph.D."...

Moreover... Sufficient to say, I was also told that Ferris had been in and out of town on several occasions just prior to this Kennedy business... Where was he...

We might also remember Ferris's connection with the Cubans. And that these people dumped him because of his certain pro-Castro activities... Also how about Ferris's Cuban airplane flights, and the time he loaned his plane to Cubans... If you remember correctly... [redacted], dropped Ferris after this... And [redacted] of that group of anti-Castro people always referred to Ferris as no-good... red... et cetera.

At least Ferris could have taught this subject Oswald how to use such a weapon; and he could have also told this person just how to acquire such a gun... its simplicity of purchase, et cetera.

Furthermore... Was not this the person (Oswald) that Ferris helped to get into the Marine Corps....

As you know... Ferris is the kind of a person who could have planned such a thing as this... and he is very capable... of such a terrible thing...

[redacted] At least... These facts bear investigation... and I hope this reminder may lend some small part to uncovering the dastardly facts behind what has happened.

Thanking you in advance, I remain respectfully your friend.

Sincerely,

62-109081-1

PS: Let's hear from you about this business regarding my wife, if you have the time... And let me know if I can get you any additional info, or do you any favor in the future.
