LOIS WESTON, Aircraft Registration Branch, Federal Aviation Agency (FAA), Oklahoma City, Oklahoma, reviewed her files under registration number 8293K and advised this registration number is issued to a Stinson 150 aircraft with serial number 108-1293. This aircraft was registered to DAVE W. FERRIE, 1302 Clay Street, Kenner, Louisiana, on May 8, 1947. The latest registration records in file list FERRIE as the registered owner. His last address recorded in the file is 704 Airline Park Boulevard, Kenner, Louisiana.

WESTON advised that an application for airworthiness certificate dated April 7, 1961, is contained in the file and this certificate, according to regulations, would be valid as long as the aircraft is operated in accordance with operating regulations. There was no particular expiration date listed on this certificate and there is no information available in FAA files which would indicate that this aircraft is no longer airworthy. WESTON added, however, that in the event FERRIE had not complied with FAA regulations his aircraft would not be airworthy but it is not necessary that this information be recorded in the FAA files.
