Dear Maggie,

This is to satisfy any requirements or desires of your publisher.

Your unique, informative, fascinating and exciting presentation is a valuable and much-needed addition to the literature on the Warren report and the Kennedy assassination.

The Griffin-Pankin memo of March 12, 1964 is from the staff papers of the Commission. This copy was Xeroxed for me by the Archives and handed to me by Mr. Marion M. Johnson. There is a record of my payment for it in the General Services Administration. You are free to use it in any way you want. The Thermofaxed copy is to provide you a copy for your files.

If there is anything in my published work that you would like to use, you are free to use it, without credit if your publisher so desires.

With regard to the "een interview, I would suggest that if at all possible, we get Turner to type his notes as fast as possible and send them to me. I will not publish any of it, but I'd like to compare what he had to say with a considerable amount of unpublished material I have and I think it is possible there may be an additional use for it and possibly him, if his information is at all good.

I am anxious for the tape. I have had to get another tape recorder. It takes up to 7" reels and plays at 17/8, 3/3/4, and 7/8, so it is not necessary for Bill to go to extra trouble. I am, when you see Bill, also anxious for the Liebler tape. When he is in the hospital I hope someone can send me copies of his public statements, which are not printed here but make radio and TV. He is, as I have said before, more important in all of this than has been recognized.

Sincerely,
