Dear Maggie,

Sylvie has sent me typed copy of a LATimes story about which Ray had told her. Perhaps younsent her the copy. I would like very much to get this LATimes story, the AP story from which it comes, and whatever is available of the record and decision of the court martiel. It fits very well with what Ixplant for the third spinoff from WHITEWASH III, the incomplete appendix of which is greater than book length. I am so overloaded I just cannot even try. If you have the clippings, may please have a copy? Has any of you chacked into this court mattiel, particularly the testimony of Leland smes, retired LS Police crimelab head: Perhaps the wife has a copy.

Having heard nothing from Farallax about the New Orleans book, I've at least tentatively laid other work aside and begun to peste up the opendix, withuall the New Orleans reports I have. That wil take a week of the longest, most interrupted days I for just the posting.

I'm not making much sense. The warine is Lance Corporal Douglas R. Collard, Burbank, charge, murder in Vietnam, evidence a bullet with no human traces and apparently close to perfect shape. Grant B. Cooper, LA, civilian defense counsel. Wife: Cindy.

For the first time in a long time my back is bettering me a little today. Not bad, but I've been spoiled by not having had an attack in several years. It just annoys me.

Do you sup ose Steve or enyone on the COI could try and get these things:

We've taken possession of the house. Got electricity this a.m., have water running, getting (excessively high) estimates on what we want to do. Now that I've borrowed the balance of they deduce. Dell owed me, they've paid it and it is on its way. I think I'll get a photocopy machine that can take the page of a book. It will be helpful and Xeroxing is 35 miles away. I've been thinking of a 3M machine that costs about \$350.00. If any of you have had any experience with this sort of thing I'd appreciate advice. I can use the old machine for rough work but with a decent machine the product can be suitable for reproduction. Meaning also by others, if any should want what have.

It took until today to get a copy of the GBS transcript. I've had to try several sources. If I get a duplicate and anyons of you wants it, let me know. I've not gotten the NBC one yet, although it has been promised.

I found Lillian's address and sent her a cory of PW. If there is snyone I've forgotten, please let me know. Also if any of you need any. The shortage should end this week if the bindery has repaired its machines. And with the book out, my wife is trying to catch up on her book work. Sho says you haven't cashed the check I sent you for thepretty scarf you got for me for her. Please do, and thanks, much, for your trouble.

I'm being evicted for a cleanup. Best to you all.
