

Dear Messie.

I very much regret you felt you could not let me know about what Jaffee had told you (plural), for knewing it earlier might have made a difference. There is now so much proceupation with immediate trial preparations the time that can be devoted to this is much less. Hewever, Bay did tell me much. These enclosed copy of a letter to Gary Schoener is, I think, self-explanatory.

Of those present when you collectively questioned Raffe at your home of whom Ray told me I remember you, Barton, both Remembe and "illian, Perhaps there were others. In any event, is is without don't that either one who was there or one who got a very accurate account of what there transpired told Lifton. I feel that with this knowledge you can isolate the lack. Whoever it was is, from his own description, secretly sympathetic to him and secretly unfrically to you. He went so far in bragging to Shheeper as to say there are people there who shun him in public and pretend to be unsympathetic to him to shield the opposite. Knowing that this may sew suspicion where it may not be warranted, " menetheless feel I must tell you, for I regard Lifton as a great petential mensee, without regard for whatever his intent may be, if he knows it. He also appreciatly knows much about your previous trips to France, your meetings with Buchanan, etc. If you want copies of the latters, let me know and I'll got permission to send them to you.

Please think about what I pose to Cary: If Liften told the truth, it is frightful; but if he lied in saying he made I available, is it not even verse? I have commissed this to but and be, as the enclose reports.

I tried to phone you last night. On were noth in. If you feer using your phone (I went to a pay phone I never before used), please pick one where I can call you, give me the number, and in 15 minutes I will, Perhaps the other phone, your daughters, would be better?

The first big hardly will be in a few hours, when the change of venue argument is made. Lest night Bee estimated that would take but a couple of hours, that Shaw would not call vitnesses. However, were I the other side, I would not spring this play at this time if I were aware of it. That I would hold for a more dramatic moment, one of greater urgancy, one with a much larger andiance than this pre forms thing would get. The media are making elaborate preparations for coverage, with mockupe of the court in their studies, etc. As the Lemmas additivit indicates, it is not necessary to presume the slosest connections between the Shaw defense and the media. Also, using it now would be using it for nothing, because they have to assume the possibility their move will succeed, and they have to give themselves the use its rejection can, on appeal. I think this is the real purpose of these metions. So expects them not to be greated.

I rushed to the post office last night to get the Repburn-Topes nesso in the mail to you. I busped into the clerk behind the p.o. the windows here close at 5 p.m., neen Saturdays, closed Sundays) who had just received your sertified mailing of the panoplies. He kindly gave them to me. I have not yet had time to lock at them but I will in the next few days and will return. Thanks. Those things mentlemed in your mote have not yet arrived. They may teday. We have

but a single delivery a day in the country. It gets here about 11 a.m. There is no special delivery at all. Also, while for most purposes a rtified is sufficient projection and does not require going to the p.o., the only or the closest to real protection increasified registration. There is less chance of interception and delay with registration, for of it there must be a written record of every hand in which it is. This, of Source, may slow it down a little. But it also discourages interception, for each handlar can be isolated. As an example of what can happen with certified mail, my load was getting too heavy after I left saliformis and had been in aw Orleans, I wanted some of my sapers safely out of my bag, which then, withouth them, aweighted 55 pounds. Also, that a copy of the CESU Gavald film and wanted that in the hands of a friend who would make stills from it for me. Youis promised to have them sent registered for me. Each was delayed a full week, over the time required in transit. That could not have happened with registered mail.

Returning to the Topoz thing, with Steve a journalism major, I suggest either he or someone he can trust, or he using the name of someone he can trust, should write McGraw-Hill, the original publisher, or Bentom, the reprinter, tell them he is making a case study of a best seller for his journalism paper, that he also wents to try and do a story on it for sale, and ask for duplicate conies of all their publicity meterial and anything also they can send or at refer him to. He should ask for soles figures, time is proporation of menuscript and in publishing, editing, how Uris stumbled onto the fact, which did not become public until after the work epocared, and any pictures they can supply, and biographical material on the real-life principals. He should use a college return address if possible, but not that of the Committee. If using enother name would result in the delay of even a couple of days, I urge that he use his own. I do think this should be done as fest as possible. If they send two copies, then there is no need for copying one for me. I have, this way, been able to get some things about the Youngblood in The Devil to Pay, including picture, now being copied for me. A student did it for me. First of all, if the pictures are of femiliar faces, you will know. Gecond, I kno people I can trust to whom I can show them. I slso have some checks in the works now, by others. If they are productive, I will let you know.

If there is enything else you have not let me knew, I wish you would. Once the trial is closer, I'll be able to do less. As of now, there is no one else to do anything about this for our own surpasse of for countermeasure in the trial. If there is anything you do not went me to pass on to Lou, the only one I would be certain to, please specify. We will not be in a position to do enything, but I feel he should know this sort of thing. I should know what Jeffe did say, in detail, if in a dub of the tape if not in writing. If you have not sent you a dub of the tape, please send it to me end I will take it with me. If you have nent it to his, rest easured he has not listened to it. He just doesn't have time. There is also the hezard that when there is a rush, the tape will by accident be reused! That has happened to some of my beat. I have never give him anything but a dub. There has been only one recent exception, and in six weeks he has not dubbed and returned it.

have decided to mend you the enclosed. Pleace, when you understand what it says, tell no one at all. I wil: tell only them person from show I got it, no one else. Then we'll see, I so doing this early in the morning. If I can, I'll go over the panoplies and see if I can return them herewith. Sany thanks for them. I hope we do not need their content, but it is best to have it.

I'll rey and keep you posted on mything that may be of interest and importance.

incerely,
