Dear Jerry.

STATE OF STA

One of the things I did when I was in MY is to see the lawyer who is handling several things for se, such as what Bell cheated me out of, want Moredith used with a contract and never paid for, what they used without contract and never paid for, and what Flammonde lifted, published by Merodith, etc.

One of the things I need for him will be an enormous tank for se to find now because I have it stored. It is the tape you made of the Fred Gale show on which Bud, Sprugue and Flazmonde appeared. I can't to dub several parts for the lawyer.

So, when you come next weekend, I'd appreciate it if you would bring your tape of this show with you. I can play it on my large machine and dub off what I need.

While I anticipate there may be some difficulties with Dell, I think it likely that Heredith will settle out of court in a namer my larger and I can find acceptable. Until there was a change in management, they had expressed what I think was sincere regret at what they had done (and I'm sure they were innocent, that their authors had done it to them) and had started talking to a lawyer friend of sine to effect a settlement. However, this lawyer got deeply issuerged in other projects and the Heredith president left, so the whole thing hung fire.

I think you understand how important thin can be to me, so please put this tape in your bag before you get bury and forget. You need not be here when I dub it, but if you want a case study in the harm these people who protend they know the material and do not do, you adopt want to listen while I play it and I'll show you that they really know nothing, merely embroider on what is published, whether it be solid material or crap.

On another subject, I heard directly from Jerry yesterday for the first time since I arranged for Bud to be his brother's lawyer.

Best regards.
