

On the Long John Show 4/3 you said

You have been in correspondence with Ray. Would you care to discuss that correspondence, that you said, what he said?

"Canipe went to the floor and opened it." Are you aware that the picture used in Ray's extradition shows the door open and the bundle part-way inside of it? (FU)

That Ray got his false identifications from graves ~~xxxx~~ yards and birth notices. Explain this with respect to Galt. (Starvo)

Called the bullet a "hollow nosed" bullet. Was it? How do they behave?

= Said the bullet "lodged in the backbone". Did it?

Said he does not know Abernathy's views on conspiracy. They have never changed, as recently as this week, in Chicago, and from the first he has said there was one. ARE you not trading on black names and commercializing the lover of King and his fame?

Said you had never really thought of what would have happened if Ray had not allegedly dropped that bundle. How could you write this book without thinking of that.

Ray stood in the tub for a perfect shot. Did you try it? Is it possible?

Said there was only one bullet in rifle because there was no time for more. Have you tried this yourself? What is faster way to load that kind of rifle.

Said that this is 100% your own work. Is it?
