

Frank 132 shows my
analysis correct, that
Zachary did not & would
not have "found" pkg.
under bath as this is
can it be used. (see 131
for transcript to cert. &
of harmful "finding" of
132 - I do not recall earlier
ref to Candie investigator
E. L. Hutchins son, Jr. with
both of them on scene
immediately, ask for all
their reports, interviews
(other John Carlisle)

132, 2d foot note - another
example of what would
have been in text & was
added after F-U. But if
Homicide only notified
Jensen, the timing is
impossible as he first
ad to it. Intellist may
this says who I had
suspect of from earlier
note re Clark, that JETH
did not tell him or LBL
