$5 / 14 / 72$ Bud, after yiu have copied the attached olip ings, if you do not already have then, as you should if your board, if not your members, are on the bell, I would like tham back. I especially ask you to read with oare and thought Don Breanning's SIEman $5 / 2$ intorviow and the emphasis on Frank's need of a shrink, to be his orm man, etc. This and othe clippings I have gathered, what I have heard hin say, what I have seen min say, what 1 have seen of hin, and other things, encourace me to suggest that you consider asking a cliprins service for every interviev he has give, evory report and rovi w made. I tilink that even if the cost is more than I could bear, it ray yield a good return. I don't see how a civil suit can be approached responsibly and with the raal. intent of succeeding without it, and any one may yield enough to make progress in foderal court. This it the bibsest blabbes outh I hava ever met. I haven't time to tell you that I am picking up on the cpaspiracy in his bock, but a foiriy ciear picture is ewroging from what he was fed and uncritically reproduced. But with in indetification, sur acionolloiger $1 . \mathrm{d}$ problem, man, do you have notive on milice!

When I can pett to unpacking my bag, and I had to heap evorything beck jug' in it after the show and never had time to merile what I camied, I'II havs two Frank files on revionts, press end ads, one comtrinisg one copy of each, for carrying, and another of cuplicates, to Thich you'll be welcome.

I't not secn this rypises ad before. It think if you do not buvo the Tine review (I don't), you should have it because Foreran had a deal cooking with ITFs on some of that Spreque inamity, whi he leaned on Ray to mine false identilication for IThi (which is owned by MTMis). The quote from Was Post reminda no that Brudlee has not answered my letter. The quote from Cook is orooked as hell, which should helpe And I have the Hoke Norrig review, wiro copy and printed versions. I also have the Apsel and Barkhom roviows, it you want copies... The back door seems more likely to sking, but you shuuld know Ray has sonothing in mind he hasn't com unicated, olearly if at al, and Stoner saw the possibilities and Sell silent whon I told hin we were and had beon woulding on it.
