Dear John,

I insured the two COUPs I sent you, so please confirm their good-condition arrival.

"othing from Beir.

I saw a block congressmen on COUP tomorrow. He will not like parts of it. Because they are true, also. This was to have happened a year ago, but his office never followed through on it.

Inwrote Stuart Mott and got a turndown.

No word at all from Ron, which makes me wonder, and wonder why. Billie told me a month ago that he said he had to write me. So, he hean't. Which probably means he finds it uncongenial.

That events have certified the clarity of my vision does not make me happy. Remember, I wrote the first book almost two years ago. "hat it forecast is happening and is baco ing clearer. Why not blind connot sub it today?

Many years ago Robert Nathan wrote a book. I read it when I was your age or, more likely, younger. Its acctrine stick with me. "Road of Ages" recounts the mythical wandering of Jaws to the only refuge left for them, some Siberian remoteness. In it he develops the idea that a Jaw is primarily some thing else's capitelist, a communist, etc. Rich American Jaws would rether be richer. Many do have principles, hold them sincerely, and ere content, doing little about them. This is what happened in Germany, and is one of the ressons it happened. Black lemmings have decided on the same suicide. Only they talk about it. They blare a Wagnerian catastrophe.

Today there is no Masada. Must would be the good if there were?

Nebody knowns it. Nobody wants to know - black or Jew.

I hope to be able to xerox the last chapter of COUP II and the appendix soon. Last in sequence will be the notes. They are brisf and, to this moment, done.

Sincerely,
