Dear Gary:

Can you tell me anything about the alleged Fritz tapes?

If you can and if anything must be held in confidence, please do that clearly.

It has been quite some time since I heard about them.

So much time that it appears there could not have been any substance to the reports I got.

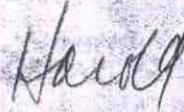

and I've forgotten why I thought you had information about them.

From your silence I presume there is nothing new about Moorman enhancement.

Nothing new here, either.

Hope everyone down there is OK.

Best to you all,

Ted Gandolfo claims to have had access to and then to have had possession of tape recordings Capt. Will Fritz allegedly made of his interviews of Oswald. Oswald allegedly said he worked with both FBI and ONI, perhaps also CIA, and according to Ted named names of those with whom he worked. I made no notes at the times Ted phoned because he asked that this be held in confidence for several weeks, when he expected to go public. His first phone call, he said, was from Michigan where, in a way he did not indicate, the tapes were and he was then listening to them. He indicated that Fritz's relatives had the tapes. He later phoned and asked me to see if I could arrange for attention to them. When I asked him about money, he said he expected to be paid for access. I said that would be wrong and I'd have nothing to do with it. On his word he would not make any such demand I did make an effort. he did make that demand, it was rejected, and I've heard nothing else about this. The detail he gave me about what he'd heard led me to believe that it would have been too big a job for it to have been faked.
