Dear Mr. Weisberg:

This letter with enclosures represents a reply to your request for a trace of all referrals to other Departments and agencies made by the FBI in the Murkin Case.

The enclosures in this letter consist of 1. a graph showing all of the referrals, 2. a legend sheet, explaining the abbreviations on the graph, and 3. copies of thirty (30) referrals which were sent to you, but for which the FBI does not have adequate documentation to determine the exact date when the FBI mailed this material to you. The additional copies of these 30 referrals will eliminate searching your records in an effort to locate the FBI release letters which enclosed the material.

The graph of referrals in the Murkin Case consists of 8 pages.

The first six pages (1-6), list referrals from the FBI Headquarters Murkin main file, 44-38861. The last two pages (7-8), list referrals from the FBI Headquarters Invaders file 157-8460; the Memphis Field
