Dear Mr. Glass,

Especially because you intend to teach history I'm glad you recognized that most of the JFK assassination conspiracy theories are absurd. I caution you also that one must have proof, not mere suspicion, in believing that there was an intelligence/ anti-Castro/ mafia conspiracy and I believe there is no such proof.

Because there was no real investigation there are no leads to be followed and there were too many who could have seen benefit from eliminating JFK or getting LBJ to be able to pinpoint who the assassins were by this reasoning.

I know of no proven theory and I know that most are made up out of nothing. Some of those that appear most persuasive are based on what ranges from fiction to overt dishonesty. Some of the authors are <sup>quite</sup> ~~quite~~ serious and some have their own agendas.

But that these authors do believe what they write does not make it so.

When you get around to teaching I suggest you write Dr. David Wrons, History Dept., Univ of Wisconsin, Stevens Point, WI 54481 and ask him to tell you what teaching aids he can provide. He is too busy now so please do not ask him before you are teaching.

The information you requested is enclosed.

Good luck and best wishes!

  
Harold Weisberg

Mr. Weisbergh,

I am a college student at Middle Tennessee State University. I have a double major in Aerospace and History and a minor in Economics. I have also been studying the Kennedy assassination for about six years. I attended a college lecture series on the assassination and have read every book I can get on the subject. I have read everything from the Warren Commission report to the most absurd theories put forth in some books.

The reason I am writing you is because over the last few years I have become a serious student of the Kennedy assassination. I hope to start off my career being a history teacher specializing in events from WWII to the present. I would also like to write a book someday pertaining to the assassination. I believe the American intelligence - Anti-Castro Cuban - mafia connection led to President Kennedy's death. From some of the interviews I have seen of you, I think you are one of the knowledgeable persons on the forces that are responsible for President Kennedy's death. I also know that any serious student of the assassination has read and studied your books. I am hoping that you will send me any information on how to obtain the books you have written. I want to buy all of your Whitewash Volumes, Oswald in New Orleans, and Post-Mortem.

The last address I have obtained was from 1988. If ~~the~~ your address to write too has changed please send me it, and a list of the books I can purchase along with the price. I would greatly appreciate this information along with anything else you could send me.

The following is my home address-

Jon Glass
