

Dear Vincent Giordano,

9/28/92

I appreciate your letter of the 8th, not postmarked until the 25th, so much that I am taking time for partial response although after a full and taxing day of writing I am tired and should be resting.

The major reasons I suspended writing were that I was devoting myself to rescuing official records from oblivion, and I've liberated about a third of a million pages, and my impaired health. I'm going on 80, I have my first venous thrombosis in 1975 and have been of limited mobility from complications after arterial surgery in 1980. "Gee I can't use stairs often and those records are in the basement, can't stand still other than momentarily, which reduced seriously my ability to search and return files.

However, I'm working on what will be a long and definitive book that does not require my use of stairs and have another in mind.

For me to be able to write using the records I got from a number of FOIA lawsuits I'd have had to have full-time help in searching for and returning records in the basement. We were still deep in debt when I began these FOIA lawsuits. I could not afford help.

I have no confidence in Tom Wilson's claims. Nor did "liver" tone or he'd have used what Wilson claimed to have.

I did plan a book on the JFK administration titled "Tiger to Ride." Won't now be possible.

I appreciate also your offer of financial support. However, I'm not permitted to lift more than 15 pounds (since heart surgery in 1989) so I cannot self-publish and we are making out now so we need no help in getting along.

But ~~xxxx~~ it is kind of you to think of this and to make the offer. We do, very much, appreciate it.

+ hope this responds to most of your letter. + hope also that can understand that I prefer to spend as much as I can of the time that remains to me not in writing letters but in putting what I've learned and gotten in ~~the~~ records on paper, if for no other use, for the future.

Again many thanks, sincerely

Harold Weisberg

Dear Harold

I have just finished reading White Wash I and Post-Mortem and I can honestly say after reading both amongst the many J.F.K. ASSASSINATION books I've read, NOTHING compares to yours! I am extremely puzzled as to why you stopped writing, especially after the rash of new "useless" books since the "UN-OFFICIAL" J.F.K. movie. (which in my opinion should be named "J.F. GARRISON", what a waste of 3 hours. Stone could have let the un-aware, uninformed public in on what's really important as you put it "WHITE WASH". I guess you're the RARE breed of Authors who are NOT in it for the \$, as you mentioned in Post-Mortem what brought me to your books were references to them in other books which all highly praise your work as well they should. Two new books "Texas Connects + HIGH TREASON #2" are fair compared to yours however people are buying them!

Harold as a devoted fan of your writings I beg of you to "let the truth come out" write another one. This is an Election year in which "Bill Clinton" could possibly win! He has stated he would re-open the case.

Also I would like to know your opinion on Tom Wilsons alleged Photo-Enhancements which he says

Proves a shot from the Front!
I hope so! I belong to the Assass. Com
mtee and all things mentioned of it is
last years convention. He should
contact you if its true, what a
team, to finally put the nail in
the coffin!

Has your book "a Ticket something"
ever been published???

Don't give up Harold don't sure we
"Meaning all committee members" Approx
600 of us could find a way financial
to back you up. I would invest in
your work personally, I own my
own business and not run off go.
but anything I can personally do.
Please let me know. I am a dedicated
reader & I'm running out of your
books!

Have you ever written to the community
they praise you in their letters and
damn you've read 70% of the new
declassified materials. Well if you
don't do anymore writings I
understand after all their bull-shit
the GOVT + Media has put you thru →

and remember in one of your
biggest fans Thank you either
way.

Sincerely
