10/21/95

Dear Mr. Geber,

Please excuse my typing. I'm 82, unwell and it cannot be any better.

Of the books I published you do not have Photographic Whitewash and Post Mortem. If you want them the price on the first is \$9.95 and on the second it is \$10.00. If both are ordered together they should go for three pounds, which will give you an idea of the postage. Of the books published commercially, I think you will want my current NEVER AGAIN! If you do not have a source you can get it from The Last Hurrah Bookstore, 937 Memorial Ave., Williamsport, PA 17701. Good people, too.

From what you say your media is much like ours, addicted to the official mythology and unwilling to face established facts.

Not a word from <sup>Priny</sup> Heiler, by the way. Or anyone else of whom I've written.

You are welcome to use anything you want from the books you have and from any others you may get.

I believe that the President was not shot in the back from behind but he could have been hit in the head from behind. I think he was also hit in the head from the front.

There was no involvement of the President's back in anything that is real, not at Arkland or as some allege, in his ability to move. I wore one of those braces for years and for two years in the Army in World War II.

I believe the skull diagram was Finck's and I do not believe there was a wound above the left eye.

On the medical evidence, on what is real not theorized or made up or coming from honest mistakes, I think you should read Post Mortem and NEVER AGAIN!

Thanks for the thoughtfulness of the postage coupon.

Best Wishes,

  
Harold Weisberg

Re: Authorization to quote.

Dear Mr. Weisberg,

I am a retired swedish mass media researcher who met Mark Lane in Stockholm in 1967 when he was touring Europe with Di Antonio's documentary film RUSH TO JUDGEMENT. We had a short conversation. He impressed me as a rather serious person and convinced me at the time of the presence of a conspiracy in the assassination of president John F. Kennedy.

Since then I have collected a small library on the assassination and I have lectured twice (1992, 1993) in front of a small audience (academic institutions in Sweden do not approach the subject), trying to outline the structural foundations of the deed, which I find in the warrior culture - not unique to the United States. I have in my library your works **Whitewash I, II & IV, Selections from Whitewash and Case Open.**

At present I am writing an article of about 50.000 signs, in which I shall state the evidences of Oswald's innocence and the involvement of a conspiracy. The reason for my text are the critiques in the swedish press of Norman Mailer's recently published documentary fiction novel "Oswald's Tale - An American Mystery". After "Case Closed" it is generally alledged by swedish media that Oswald was the sole perpetrator of the crime and american writers like Delillo an Mailer should stop acting irresponsibly by suggesting Oswald might have had a collaborator on the grassy knoll. Swedish s. c. intellectuals, ignoring your works and those of other meticulous researchers, are unaware of the fact that it was Epstein who proposed the idea in 1966 and he has remained faithful to it ever since.

In my article, addressed to the editors of Sweden's major news papers in the form of an open letter, I shall make references to your examinations (and those of other writers) and theories and in a few cases make small quotations. I kindly ask you to authorize me to do so. Sources will be given in the text and in the bibliography.

I do not believe the media will mention my letter - it is also difficult to publish on account of its length - but I want to shake the editors up a bit and have them know that there is someone in Sweden who has an extensive and comprehensive knowledge of the assassination, which the media collaborators have not, and who, furthermore, is not dealing in myths.

While writing to you I venture to ask you the following questions:

1. Are you of the opinion that no bullet hit the president, coming from behind?
2. Has any more information, to your knowledge, concerning the state of the president's back at Parkland Memorial Hospital come forth recently?
3. Has any more information, to your knowledge, concerning the wound above the president's left eye, as noted in Boswell's diagram of the skull, come forth recently?

Thanking you in advance for your kind assistance, hoping that you are well, with best regards,

*Yours Sincerely*  
*Nils-Hugo Geber*
