Deer Mr. Guterman,

Because the original error was mine, I'll be setisfied whatever you do.

If you ask me for a figure, make it half. Fair enough?

Your apprehensions about the autopsy pictures and Xrays are justified.
You will see that months ago, in writing WHITEWASH II, I anticipated this. I have also written an as-yet unsold magazine article on it and will have a chapter in HITEWASH III, one of perhaps five besides the documents.

The Capital Record is the Revolvin: Whitewash. Those miscreble people out to make the cheepest of all them many bucks m de by a miscellanous assortment of intellectual finks, imposed on all of us and misrapresented what they were doing. They then carefully culled (that brif thing from me was off the record and is hardly, as you can imagine, a fair sample of the hour and a half they taped.

Sincerely,

Harold Weisberg

1

January 4, 1966

Mr. Harold Weisberg, Eyattstown, Md.

Dear Mr. Weisberg,

Many thanks for sending along another copy of Whitewash II, which you have signed for me. You ask me to return WW II that was previously sent, but unfortunately I made notes in it when reading it and it would no longer be saleable. If it would be agreeable to you, please let me know what you would consider fair reimbursement for the first copy I sent, and I will pay you and then donate the book to our Public Library. (Bayonne has 70,000 people)

I was very much impressed reading Whitewash II and will soon be sending in my check for WW III.

The article in the new Saturday Evening Post was, to me, very well written and I hope it has some impact. Onething worries me a little-a. Great doubts have arisen about the autopsy pictures; b. I personally predict the pictures will be available in the near future; c.If the autopsy pcitures are what the Commission said they were, the public will then be told that ALL doubts are now removed. I hope the critics and investigators will not fall into thos trap.

Last night I heard the new Capitol recording "The Controversy". It is a poor editorial in favor on Commissions findings. It uses your voice and Epstein's to combat Mark Lane's criticism's with everything taken out of context. If you haven't heard it, suggest you try to. The record claims to be UNbiased.

Once again, continued good wishes for bringing about a new investigation. Selfishely, my friends think I am losing my marbles because of the way I feel about this case. (My reply is "Remember I've been telling you for 12 years that Dr. Sam Shepard is innocent; I was right."

Best regards,

Michael Guterman
