

Dear Mr. Rosenberg,

Have been meaning to write quite awhile regarding "Psychoptic Internals," I found it very interesting. Can explain awaiting all near developments.

I know with time you and Mr. Garrison will show who murdered President Kennedy. It is frightening how the Government is controlling more and more. We are supposed to have a free press, but get most propaganda and newspapers liberately brainwash the people of the United States. As far as TV network, CBS, and NBC's specials were deplorable. It makes me wonder if the Government is somehow getting into the news media. It is controlling more and more until it is very bad. It reminds me of the "black hand."

2.

It has become so muddled
and somewhat repetitive,
your postscript at the bottom
of page 143 is probably
quite true. I have
tried to myself many
times whether the CIA
is involved in all the
deaths - trying to cover
up their tracks.
Maybe it is proved,
and can only speculate though,
Yours Truly,

Lucy G. Goodson

P.S. You are doing a great
job and I think you
are wonderful. (Karyn)
You were great when
I was in the hospital and
you on the telephone perhaps.
I hope you'll be ok again.
