

Good wishes 9/29/66

Dear Mr. Weisberg - <sup>for your research</sup>

Thank you so much for taking the time & trouble to answer my questions. I am curious about your regard to Whitewash. Will it be also available through you? What will be its content? There are other books out on JFK murder. I have also read Barbanis "Who Killed Kennedy" & he offers some very interesting theories & like you he supports the Warren findings. Also interest print some matter in asking for a reopening of the case. As you see, your books & these others are bearing fruit & awakening public consciousness. I suspect ~~who~~ we are not in anything, & surely ~~support~~ the whole conclusion of the Warren report was to surely conclude & long ago I suspected a conspiracy & more than met the eye. It does not take a great intellect to see through to such things & often it is quite plain.
