Dear Richard,

In a letter my friend Gerald Ginocchio, professor of sociology at Wofford College, Spartanburg, SC says, apropos of his teaching, "I have read and analyzed everything I could get my hands on regarding Malcolm X and his assassination. Michael Friedly's book, published by Carroll & Graf, holds up well. Richard Gallen can be proud of that one."

If that is oge David did and gave me, perhaps I gave it to him or told him about it. One or the other, the ðther being Hood. I thought it good also and that the schools might use it.

Best,

Gerald
