Dear Richard,

We got an accounting and a check from Carroll. Thanks.

In today's mail I got another of Hawkshaw Harry's tirades. In this one he does not mention my name but he repeats the same craziness. In the one before it, also rather long, he modified the one before that to eliminate his allegation that I wrote ~~NEVER~~ AGAIN! against his Killing the Truth. Which was written long before his was out. I'm told he had only an innocent mention of me in his newest. If any of you got him to be a teenweenie bit rational, thanks.

The only part of his newest of which ~~im~~ I know that may be of interest to me is the case he makes for the alleged faking of the Zapruder film as it involves Zapruder.

If that is not too much trouble for someone to xerox I'd like to have it.

But not enough for anyone to take much time for it.

In this piece I got today he says that C & G filed a suit for him.

What surprised me is that the Zapruder estate has not filed suit.

They have and have been selling a very valuable property he says is a fake.

Thanks and best,

Harold
