Dear Raphaela,

As I indicated to Richard some time ago, I needed some checking to be done on Posner in standard directories. Friends of mine have now done enough of that to indicate what I would have thought to be impossible, that for not less than seven years the standard lawyer directory has listed him incorrectly. So incorrectly that they have him graduating from a law school that does not exist, and that he did not even attend that university as an undergraduate.

This requires some rewriting in the last chapter of the rough draft that you have. I write to suggest that if you reach that point before I send you the new copy it would be better to wait until you get that new copy. I expect to be able to get onto that shortly.

When you offered to send me the copy of what you have retyped I suggested that you not do that yet because I then did not have time to read them with attention. By the time you can make the copy and send it to me I should have that time, so I ask that you now send a copy of ~~it~~ what has been retyped.

It is not necessary to send me a copy of the rough draft. I have that.

Thanks and best wishes,
