Dear Raphaela,

Too many things that took much time kept me from acknowledging the retyping of Case Open's ms. but I thank you now for what came today, into XXVII, to page 614.

It looks nice! Not like when you were first on that gizmo that would terrify me!

A friend, Dr. Gary Aguilar, of San Francisco who is active in JFK assassination matters with others asked for access to the ms. I told him he can have that here for what has been returned but I do not know when the rest would be done and I referred him to your office if he wanted to try to learn when. If you hear from him.

Daily I get nice letters about Case Open. Two today that I enclose, both from those I've never seen or spoken to. The one to whom I sent a copy of the book gave me copies of Col. Finck's secret autopsy notes I used in NEVER AGAIN!

Again thanks and best wishes,
